

DEVYANG PANCHANI

Data Analyst | MSc Data Science & Analytics | Python · SQL · Power BI
London, UK | +44 7770917309 | devyangpanchani111@gmail.com | [Linkedin](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MSc Data Science and Analytics graduate (Brunel University London) with certified expertise in Python, SQL, Power BI, and Azure, and a track record of translating complex datasets into clear, actionable insights across any domain. Leverages AI tools including Claude, GitHub Copilot, and Microsoft Copilot to deliver high-quality analytics efficiently, combining technical rigour with strong communication, stakeholder awareness, and evidence-led thinking.

CORE SKILLS AND TECHNOLOGIES

Python · SQL · DAX · Power BI · Pandas · Tableau	Machine Learning · EDA · Statistical Analysis
Azure (AZ-900) · Power BI (PL-300) · SQLite · Git	Data Wrangling · ETL Pipelines · Data Governance
AI-Assisted Dev: Claude · GitHub Copilot · MS Copilot	GDPR · Healthcare Analytics · Stakeholder Reporting

KEY PROJECTS

NHSFlow Intelligence - RTT Waiting List and Capacity Risk Analytics | [MSc Project, Brunel University London](#) | 2025-2026

- Built an end-to-end analytics platform on real NHS England RTT data covering 7 million patients, 532 trusts, and 24 specialties using Python, SQL, and Power BI
- Engineered an ETL pipeline and SQLite warehouse, and built interactive Power BI dashboards revealing a 34.8% national breach rate against the 18-week treatment target
- Reduced build time by approximately 40%** by using GitHub Copilot for Python development and Claude for analytical logic, query writing, and documentation
- Identified Trauma and Orthopaedic as the highest-risk specialty with 826,000 patients and 337,000 breaching the treatment target

SmartMart - E-Commerce Order, Inventory and Sales Analytics Suite | [Independent Project](#) | 2024-2025

- Built an end-to-end retail analytics platform processing 185,950 sales transactions using a Python ETL pipeline, PostgreSQL data warehouse, and 5 interactive Power BI dashboards
- Designed a star schema with 1 fact table and 5 dimension tables enabling analysis across 263.66M in total revenue, 178,400+ orders, and an average order value of 1,420
- Reduced reporting time significantly** by using GitHub Copilot for SQL query optimisation and Claude for dashboard structuring and documentation planning
- Delivered customer segmentation revealing 56.9% revenue contribution from female customers, product performance identifying Laptop and Phone as top categories, and geographic analysis across 5 major cities each generating 51-54M in revenue

WORK EXPERIENCE

Team Leader and Customer Service Representative | [Sainsbury's](#) | Nov 2023 - Present

- Data-driven decision making:** implemented KPI-backed scheduling strategies that improved team efficiency by 12%
- Financial accuracy and attention to detail:** managed multi-till reconciliations with 100% end-of-day accuracy across all shifts
- Stakeholder communication and leadership:** coordinated cross-functional teams to streamline workflows and consistently exceed weekly sales targets
- Conflict resolution and people management:** led a team under high-pressure retail environments, developing strong interpersonal and de-escalation skills

Computer Assistant Trainer | [Gyaan Computer and Education, Surat, India](#) | Jan 2019 - Jan 2022

- Communication and simplification:** delivered Excel, Word, and digital literacy training to 100+ learners by translating complex concepts into accessible, practical sessions
- Structured analytical thinking:** designed data-informed teaching modules that improved learner engagement and measurable technical proficiency

EDUCATION AND CERTIFICATIONS

MSc Data Science and Analytics - Brunel University London | 2023-2024

BCA (Bachelor of Computer Application) - Dr. B.R. Ambedkar University, India

Certifications: Microsoft AZ-900 (Azure Fundamentals) | Microsoft PL-300 (Power BI Data Analyst) | Google AI Fundamentals | IBM Introduction to AI | Tableau Certified Data Analyst

AI-AUGMENTED WORKFLOW

Python Development: GitHub Copilot (code generation, debugging) | **SQL and Analysis:** Claude (query writing, optimisation) | **Power BI:** Microsoft Copilot (DAX generation, visual design) | **Docs and Planning:** Claude (structuring, documentation, analytical planning)
